

More NaturaLawn of America Nationwide Testimonials

"The family who built our three-year old house was unsuccessful in two attempts to seed a lawn. Our grass was in terrible shape; but as a mother and pet owner, I was unwilling to load it up with nasty chemicals. Instead, I called NaturaLawn of America. We now have a beautiful healthy lawn that I can feel good about. And my husband touts our "organic" lawn to anyone who will lend an ear."

Susan Horne – Aurora, OH

"You are doing a great job! We are glad we switched to NaturaLawn of America and are spreading the word about the super job you do."

Steve Pfannenstein – Rockville, MN

"Our lawn is beautiful. Thank you for the great results AND for protecting my family and the environment from unnecessary chemicals and pesticides. It's nice to have a lawn care company that is concerned about my lawn, my family and the environment. When people are looking for a healthy, nice lawn, friendly service AND a safer lawn care option, I highly recommend they call NaturaLawn of America."

Pete Plimmer – Wilmington, DE

"I just want to thank you for all the years of guidance and wonderful service that you provided to us. As first-time homebuyers, we were unaware of the constant maintenance a lawn requires. We have been using your service since 1997 and our lawn went from dirt to a plush velvet yard. We have received many compliments on our wonderful yard – thanks to the service you provided year after year. We have and will always continue to recommend you to others."

Michele Sawyer – Richmond, VA

"Our yard was in terrible shape when we bought our home. Being first-time homeowners, we were unsure how to tackle the daunting task of improving our yard. We contacted NaturaLawn of America for assistance. Within a week, they were at our home beginning the process of turning our yard around. After 2 weeks we saw significant improvement. We are extremely happy and couldn't be more pleased with the service and dedication that NaturaLawn of America has shown in turning our yard around. We would recommend them to anyone!"

Brian Cleland – Belleville, IL

"I wanted to write and let you know how pleased I am with NaturaLawn of America. I had never used a lawn service before. I'm against putting more chemicals into the environment, so I decided to see what you could do organically. My lawn was 1 ½ years old – builder grade seed on builder soil! It was a lawn in need of some help, but I didn't know how wonderful it could look.

Two days ago, my neighbor (who used one of the top chemical lawn companies) sounded a little baffled and asked what I do to my lawn—it looks like a carpet! We just smiled and said "NaturaLawn of America". That's when I took a good look at my lawn and everyone else's. Our lawn is thick and green. Despite the recent drought, despite our lack of attention to our lawn, and despite its humble beginnings, it is a magnificent piece of work."

Paul & Doris Pavlichek – Mount Airy, MD

"This is our second year with NaturaLawn of America and I can't say how much we appreciate your work. The yard is awesome!"

Don Strei – Elk River, MN

"A walk around my yard compels me to set aside time to tell you how pleased I am with the condition and appearance of my lawn. I have heard for years that one could not establish a decent lawn in Richmond without devoting a tremendous amount of time, energy and money to getting it done. I took that as a challenge. Despite my best efforts, including a fair run with another lawn care service, the results were disappointing. I began to believe that story.

My experience with NaturaLawn of America, however, belies that lore. Since I started with you last year, the improvement has been miraculous. My lawn is thick, green, nearly devoid of weeds and growing in spots it never grew before. It's the best looking lawn in the neighborhood! In addition, with two indoor/outdoor pets, my wife and I have far fewer concerns about health risks for them because of your system!"

Joe Sullivan – Richmond, VA

"Our lawn looks great! Better than it ever has! Good Work!"

Eddie Reed – Shawnee, KS

"My lawn is beautiful. It has never looked this good. It looks like lush green velvet. We only had one dandelion this spring and it was on the edge of our property, so it must have been the neighbor's!"

Jennifer L. Lloyd – Bear, DE

"We have been very pleased with NaturaLawn of America. The service is prompt and friendly. The results have been gratifying. Our lawn looks lush and green and we have received many compliments. I highly recommend the service. And of course, it's organic-based!"

George Reed – Newton, CT

"Thanks for helping me transform an 'ugly duckling' into a 'swan'. You deserve the 'Best in Yard Improvement Award!'"

Gail Meador – Glen Allen, VA
